2. [Redacted] tells us that the Soviets plan to leave all of their missiles, including ground-to-air, ground-to-sea and ship-to-air, at the disposition of the Cubans upon completion of Cuban training which is in a very advanced stage. He tells us also that the Soviet agreement not to fire on U-2's is still in effect and that there are no indications in Cuban government circles that it will be changed when the Cubans take over the SAM sites.
